PROJECTS

React Customer Relation Management App

- Here we are authenticating three types of users – Admin, Engineer, Customer. Where the active status of Customer & Engineer are visible on the top & Admin can handle both Engineer and Customer portal. Engineers can see the data of allowed tickets added Oauth also and Customers can create, update, edit the ticket.
- Worked with Axios, Api's, Local Storage.
- Tech Stack : ReactJs, Material Table, Bootstrap.

React Movie Booking App

- Created Login/Signup, Landing, Admin, Client, Customer Page.
- Where Anyone can see an Updated Movie but have to login for booking ticket.
- Admin will control all the records, Client can update and delete the movies, Customer can do seat selection & food-beverages order and book his tickets.
- Worked with Axios, Api's, Local Storage.
- Tech Stack : ReactJs, Material Table, Bootstrap.

React Contact App (in-Progress)

- Created Contact App using react and localStorage & fake Api
- Where users can create new contacts, edit previous contacts, view all details of contacts, update previous contacts.
- Admin will control all the records, Client can update and delete the movies, Customer can do seat selection & food-beverages order and book his tickets.
- Worked with Axios, Api's, Local Storage.
- Tech Stack : ReactJs, Material Table, Bootstrap.

Quiz Application (in-Progress)

- Based on Html, Css, JavaScript.
- Used Json data for quesitons, Updating Questions and rendering the score on the UI after completing Quiz.

React Tic-Tac-toe App

- Using react and storing values on localStorage & announcing winner at the end, with onclick Restart option.

SKILLS

- ☐ JavaScript
- ☐ ReactJs
- ☐ Material UI
- ☐ Redux
- ☐ Git
- ☐ Html
- ☐ CSS
- ☐ Bootstrap
- ☐ Jest
